

Appl. No. 09/865,836
Amdt. dated April 26, 2004
Reply to Office Action of Nov. 25, 2003

Amendments to the Drawings:

The Figures have been specifically amended to add reference numbers and other indicators to describe the portions of the materials which are situated below the target area and outside the target area. Replacement Sheets are therefore hereby submitted. These three sheets including Figures 1, 2a and 2b, and 3, replace the previously submitted three sheets. Applicants submit that support for these amendments may be found at least at page 4, lines 12-22 of the specification. Such paragraphs describe the placement of functionality below the target area (in the core and the layer immediately above the core). Additional support may be found in the Abstract originally submitted with the specification, lines 8-14.
